End-to-end platform for institutions

Crypto as a Service

Offer crypto services with security and scalability

Parfin Terminal

All the tools you need to manage digital assets

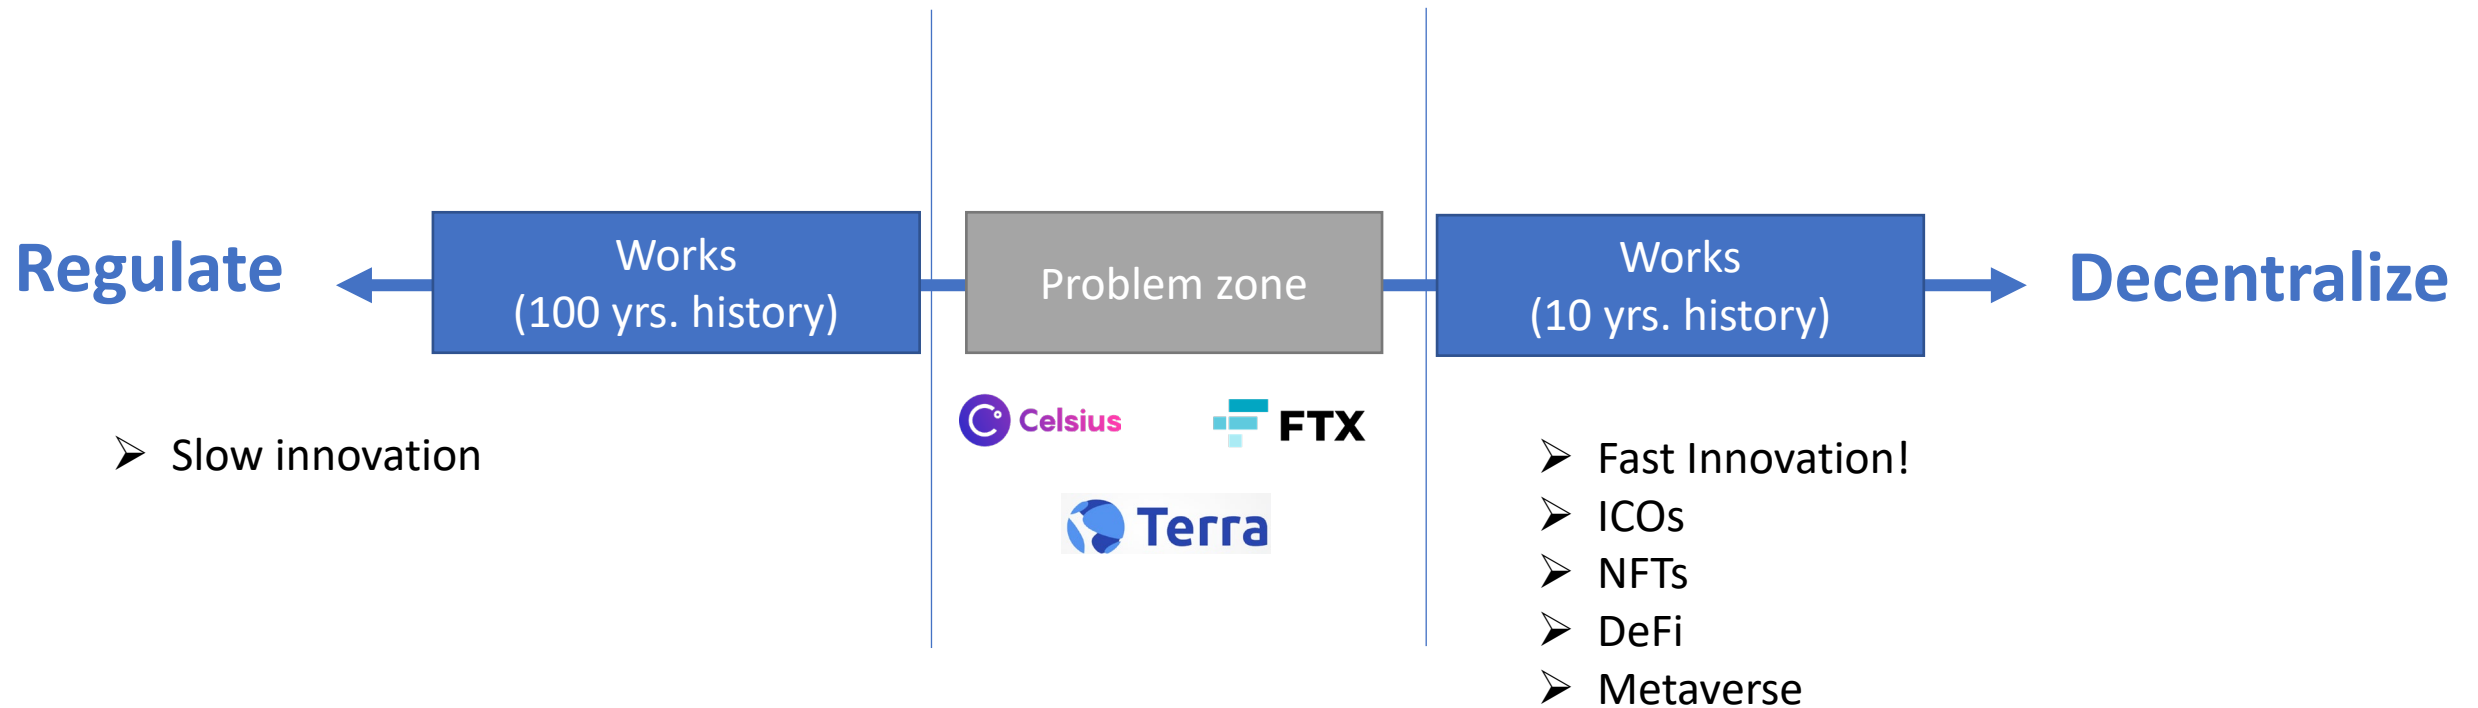

The Token Zoo

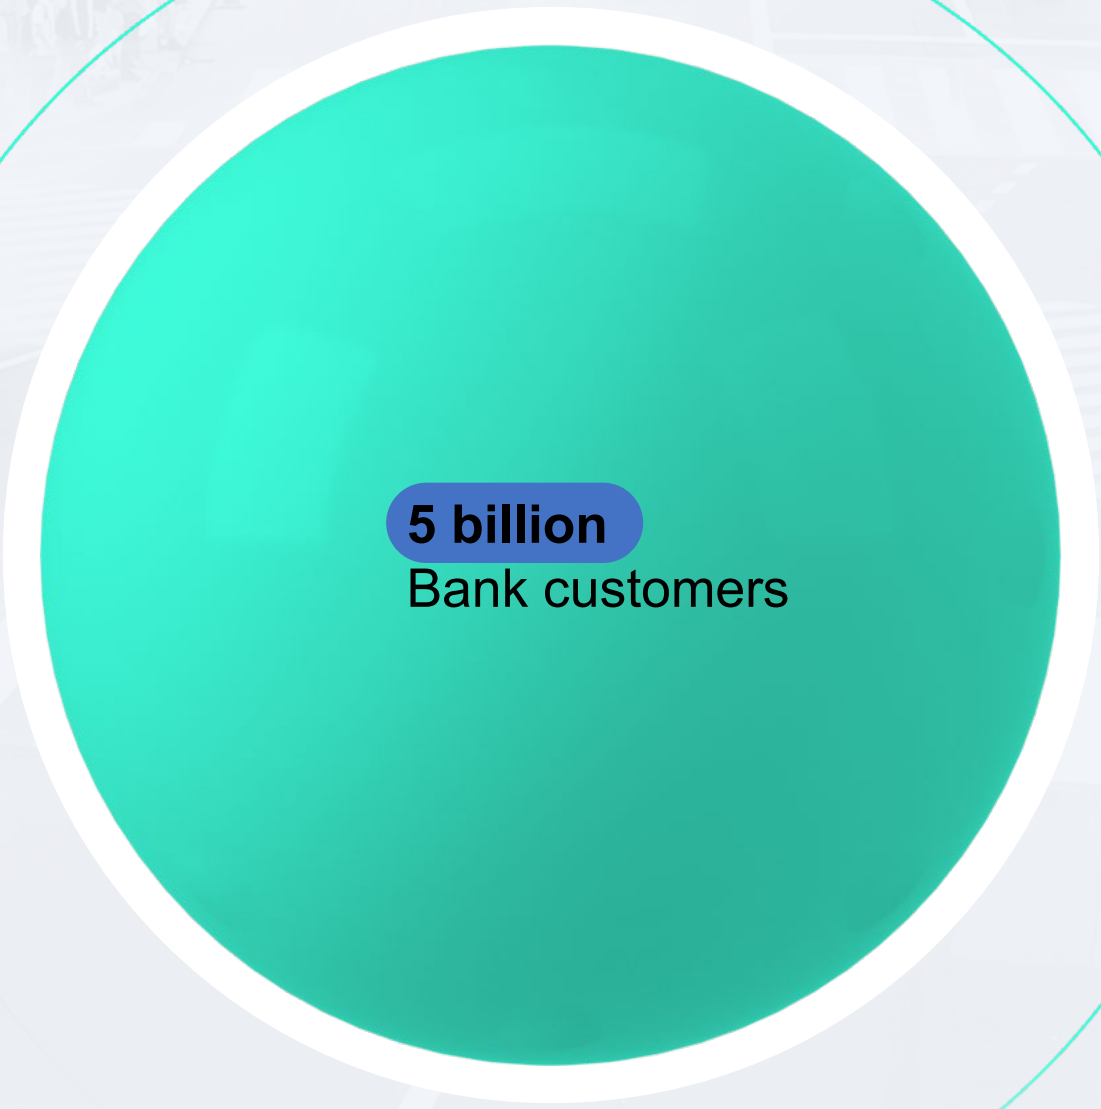

- Unclear regulation as to what constitutes a security
- Each jurisdiction has different views and laws (US particularly tricky)

Decentralization vs. Regulation

50m
Ethereum users

Where is the
**Mass
adoption**

Tokenization

- Financial & Non-financial assets
- Using blockchain rails (local permissioned chains)
- Compliant with local regulations and enhanced by CBDCs
